

Lime Rock Drivers Club (LRDC)

www.limerockclub.com

Is looking for highly motivated pre-professionals to help organize, promote, and bring new perspectives to our growing club. Resumes are now being accepted for the 2021 season.

The LRDC internship is a mutually beneficial partnership between future racing professionals and Lime Rock Park's premier driving club, a mutually beneficial partnership - interns will gain valuable field experience in career paths, professional contacts, and mentoring in an exciting and unique market. As an unpaid Lime Rock Drivers Club Intern, you will have "behind the scenes access" to all major Lime Rock Park race weekends and enjoy the benefits of working closely with Lime Rock Park managers - including networking opportunities, off-site events, referrals and more. **Milage will be offered for those traveling outside the Lakeville area.*

Here's what past Drivers Club Interns have said about their experience...

"There is no place better than the Driver's Club at Lime Rock to develop an overall appreciation and understanding of both track and business functions. Being an Intern at Lime Rock not only offered me the first-hand exposure I was looking for in a unique business that I loved, but also allowed me to pursue my passion for racing, leaving me with great on and off-track experiences, thrills, memories and friendships that will remain with me long after the racing season ends." - Mike Briskie, Intern for The Lime Rock Drivers Club

"I have always had a passion for racing, and from an early age decided that I wanted to work in the racing industry. In my senior year of college I was required to complete an internship in a career field that I would like to pursue after graduation. I was fortunate to obtain an internship at Lime Rock Park for The Drivers Club. I didn't really know what to expect when I first started or what type of duties I would be given, but I have to say it was one of the best learning experiences of my life. The internship allowed me to expand my knowledge on what I learned in school and apply it in the real world, such as sales, marketing, sponsorship, advertisement and hospitality. With the guidance I received from the staff, I was also able to help develop The Drivers Club website, work the sales booth and help in obtaining partnerships and sponsorships. I contribute all my success to the knowledge and support I found while interning for The Drivers Club at Lime Rock Park. I would highly recommend this internship to any student that would like to pursue a career in the motor-sport industry." Jeff Lail, Intern for The Lime Rock Drivers Club

"I chose to do the internship with the Drivers Club for the pure love of Motorsports. Words cannot describe the incredible experience I had. By the time I was two months into my internship I felt like I became a part of a family. I don't recall ever experiencing an unhappy moment over the course of my internship, and the reason is because the people associated with this group are so genuine and so caring, that there isn't a place for unhappiness. Members and staff alike will go to no ends to ensure that by the end of the day you leave with a smile on your face. If you want to be a part of a group or in an environment that nurtures such a strong sense of friendship and sportsmanship, you've come to the right place. The only disappointment I have regarding my internship with the Club is that it's now over, but it will go down in my memory as being one of the best things I ever did." Joseph A. Boruch, Intern for The Lime Rock Drivers Club

"Just wanted to shoot you a quick note and say I found out about my first graduate program: I got in to the University of Edinburgh's STS Masters Program!!! I have to say thanks to you both because in my acceptance letter they cited how cool it was that I work at a race-track and how that made my application stand out." Eva Gray, Intern for The Lime Rock Drivers Club
